

Cobweb Migrate 365 Assessment

Making the move to Microsoft 365 easy

2020 has been a year like no other. As businesses have been forced to lock their office doors and switch to remote working, we want to ensure customers like yourselves have access to the most up-to-date and best in business technology, so you're always prepared.

Within the next three years, Hosted Exchange 2013 will no longer be supported by Microsoft, opening up many users to security vulnerabilities. By upgrading your service now, you will be completely avoiding this potential risk of service and business disruption.

The benefits of moving to Microsoft 365

Moving to Microsoft 365 and working in the cloud has a number of benefits that allow your staff to work more productively, collaboratively and securely than ever before.

Always updated

You'll automatically access the latest version of Microsoft 365.

Better together

Collaborate on files and projects in realtime.

Reduce Costs

Consolidate your IT software into one monthly bill.

Grow with you

Add and remove users easily, whenever you need.

Work anywhere

Access your files and tools on any device, from anywhere.

Save and secure

Microsoft 365 has built-in security for users and devices.

There has never been a better time to migrate to Microsoft 365. But careful, expert planning is essential.

What is 'Cobweb's Migrate 365 Assessment' service?

Whatever your current email platform, Cobweb's team of migration experts can help you make the move to Microsoft 365, trouble free.

This two-day assessment looks at your company's individual requirements and goes through every detail that needs to be considered as part of a migration to Microsoft 365. As part of the assessment, we will look at the functionality that you currently have combined with your future aspirations, so that our experts can recommend which licences are likely to suit your company best.

The service will also detail the best way for you to move from your existing email service to your chosen Microsoft SKU.

On completion of the assessment you will receive a detailed assessment report.

Can Cobweb carry out my migration?

Once you have received your assessment and you understand the next steps required to move to Microsoft 365, Cobweb can help with the migration.

There may be different options but we will always be at hand to explain them to you so you can make informed decisions.

Your migration explained

As you move to Microsoft 365, we recommend speaking to the Cobweb team so that we can plan your migration as smoothly as possible and at the budget that suits you. Working with our technical team, your migration will include:

**A bespoke
migration plan**

**Your own
project manager**

**Full project
management**

**Total risk
management**

**Migrate when
you want**

**Contact with senior
engineer**

About Cobweb

Cobweb is one of Europe's largest cloud solutions providers. Founded in 1996, the company draws on in-depth expertise and decades of experience in what is now known as cloud, empowering organisations of all sizes to grow into flexible, agile businesses through the deployment of best-of-breed cloud technologies.

A member of the Cloud Industry Forum and a Microsoft Gold Certified Partner, Cobweb was the first provider in Europe to deliver Microsoft cloud services through the Microsoft Cloud Solution Provider programme. The company prides itself on innovation and liberating its customers and partners through technology. This is backed up by UK support and advice 24 hours a day, 365 days per year. Based in London and Dubai, with an operations centre on the south coast, Cobweb is a British company with a global outlook.
