Codat

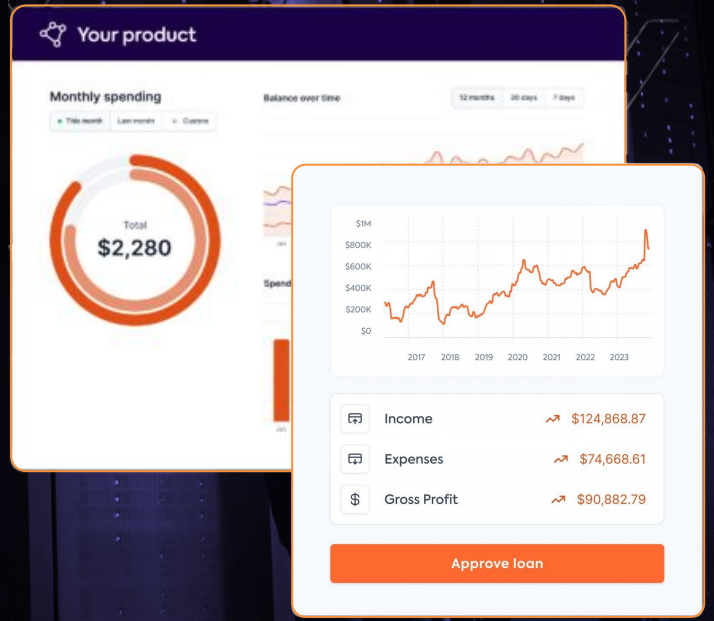
Building deeper connections with your customers

codat

The business data streaming service.

We are building a future in which business data is available on demand.

Where you can stream actionable customer information & insight *wherever* you need it, *whenever* you need it.



Codat has been solving access to business customer financial data for over 8 years

We help your customers easily **share** data from their ERP and Accounting Software

Data are enriched, standardized, and put in the right format for a **specific** use case

Data are refreshed on an **ongoing** basis

We work with the largest banks and fintechs, powerting SMB financial products
