

# CODEPROOF®

## Cyber Device Manager®

### MDM & UEM

**Cyber Device Manager®** is a patented, AI-powered MDM/UEM platform offering enterprise-grade device management with an intuitive dashboard and one-click policy deployment. Featuring zero-touch enrollment, advanced APIs, and cross-platform automation, it simplifies management for both technical and non-technical users.

#### Key Advantages:

- ✓ **Custom MDM Solutions:** Tailored feature development for large-scale deployments
- ✓ **MSP-Ready:** Multi-tenant portal with unified customer management and automation
- ✓ **Device Reseller:** Codeproof is an authorized Android Enterprise device reseller and can create secure zero-touch customer portals for hassle-free device enrollment.
- ✓ **Deep Ecosystem Integrations:** ABM, Android Enterprise, Zero-Touch, and OEM Config

#### Enterprise-Grade Foundation:

- U.S. Patented Technology (#9,083,752)
- 24/7 support via chat, email, and phone
- Flexible pay-as-you-go subscriptions

Experience the next evolution in intelligent endpoint management!

### Supported Platforms

Cyber Device Manager available for Android, iOS, macOS, Windows and Linux

## Customer Reviews

The Codeproof platform not only assists in fleet management but has benefitted our company in helping to make the process of retrieving company property more reliable. Customer support is always accessible and those who have assisted us have gone out of their way to ensure the MDM platform meets all of our needs."

-Dylan Smith, Aculabs Inc

"I chose Codeproof over other players in the market because it's simple and customizable dashboard caters to the needs of my business. Codeproof tries to find solutions and treats you as partners rather than just a customer."

- Jeffrey Falkingham, NHBlackLabs Delivery LLC

## Product Features

**Security policies:** Create, deploy, and enforce security policies to all devices for data security, privacy, and compliance.

**BYOD containerization:** Separate work and personal data for privacy and data security. Restrict corporate apps, data, and management policies to the work profile.

**Security alerts** Receive alerts via text and/or email in case of security incidents and neutralize them automatically.

**Location tracking:** Remotely locate lost or stolen devices including physical address with GPS tracking. Lock and/or wipe devices without deleting personal data.

**Geofenced camera blocking With Site Secure**®, disable phone camera functionality in specified areas to prevent users from taking pictures or video.

**Cloud dashboard** Receive alerts via text and/or email in case of security incidents and neutralize them automatically.

**Cyber Remote**®: A cloud-based, VPN-secured platform that simplifies secure remote access for users of all technical levels.

**MSP Dashboard** Manage all your customers in a single dashboard offering true multi-tenancy.

**Mobile expense control:** Monitor and restrict the data usage in mobile devices.

**Contacts manager** Organize all your business contacts in one place. Publish and manage contacts through the Codeproof dashboard.

**Content collaboration:** Enable secure file sharing, editing, and saving, along with secure sharing of data, including emails and apps.

**Remote Screen Access:** Remotely access the screens of Android devices and control the apps from the Codeproof Cloud Console.

**Reports:** Get in-depth, informative, and easy to read reports e.g. device inventory reports, app summary reports etc. in one place.

**Content filtering:** Block unauthorized content by flagging websites, IP addresses, keywords, categories, and content on WiFi and cell networks. Support Get fast, personalized, responsive, and global customer support from a real person, anytime you need it.

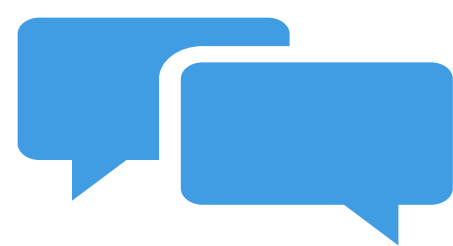

**MDM API:** MDM APIs allow seamless integration for automating device management tasks like app deployment and security enforcement. They help manage mobile devices at scale, enhancing security and efficiency.

*The Codeproof software itself is great but our quick and accurate support makes your experience amazing*
