

Private ChatGPT Deployment

Customised, Compliant,
and Completely Under
Your Control

In the world of AI, one misstep with sensitive data can cost millions - but what if you could eliminate that risk entirely? Our Private ChatGPT Deployment service offers a solution tailored to your needs, providing a secure, customisable, and powerful AI assistant within your own environment. By partnering with us, you'll gain access to the latest Azure OpenAI models, including GPT-4 and DALL-E 3, all while maintaining complete control over your data and compliance.

Key Outcomes:

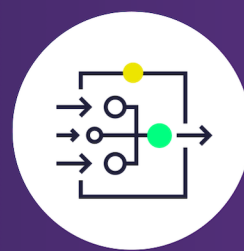

Enhanced Security

Deploy a private ChatGPT instance in your Azure environment, ensuring your data never leaves your control.

Customised AI Assistant

Tailor the ChatGPT interface to match your brand and create custom personas for various business needs.

Integrated AI Workflows

Seamlessly incorporate document analysis, image generation, and vision capabilities into your AI workflow.

Transform your approach to AI with our Private ChatGPT Deployment. Contact us today to discover how we can tailor this solution to your unique requirements and help you stay ahead while maintaining the highest standards of security and compliance.

Private ChatGPT Deployment

What's Included?

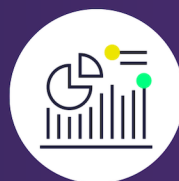

- A fully functional private and secure chatbot application in your own environment.
- A customised ChatGPT interface to match your brand.
- Security measures and access control features to protect your deployment.
- Document search capabilities across various file formats including CSV, Word, PDF and PowerPoint.
- DALL-E 3 and GPT-4 Vision to generate and analyse high-definition images.
- Tailored chat personas for specific business needs.
- Admin controls and usage analytics.
- Thorough demonstration and handover to your team with ongoing support and guidance for future enhancements.

Why Choose Private ChatGPT Deployment?

Ensure Compliance

Avoid potential fines and data breaches by keeping sensitive information within your control. Azure OpenAI never retains prompts or completions for future model training.

Boost Productivity

Empower your team with a powerful AI assistant tailored to your specific industry and company needs, accelerating workflows and decision-making processes.

Maintain Data Privacy

Keep your proprietary information secure by deploying ChatGPT within your own environment, eliminating the risks associated with public AI platforms.

Future Proof your AI Strategy

Build a solid foundation for ongoing AI initiatives with a scalable, customisable platform that evolves with your organisation's needs.
