# Make SQL Server sustainable and secure with Microsoft Azure

## About SQL Server migration services with Coeo:

Coeo are really proud to be a specialist Microsoft Data & AI partner, focused on delivering real business insight with Azure data services. Working with organisations to define, deliver and manage a secure and sustainable modern data estate.

## What we offer

Coeo can support your organisation to bring SQL Server up-to-date with Azure SQL and drive business transformation.

Understanding your SQL environment, application requirements and workload dependencies can be a challenge. Coeo provide a Cloud Adoption Framework aligned methodology to assess, plan and deliver a successful SQL Server migration.

A sustainable, future-state target architecture design is combined with expert recommendations for cost optimisation; defining which Azure SQL tools and services are best fit for your business.

Post migration support is ingrained in how we work with our customers. Knowledge transfer, training and a 24/7 Dedicated Support Service make sure your new data platform is always secure.

## What our customers are saying

“We needed to move our entire production environment, including our mission critical systems for the day-to-day operation of the business. We have found a trusted partner in Coeo and are delighted with the migration and on-going proactive management of our Azure platform.”

– John Eggleston, Partner and Global CTO, Pantheon

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

## Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
