

# ACCELERATE AND FACILITATE CLOUD MIGRATION

Microsoft Azure makes migration to the cloud easier, faster, and more effective. It's what every cloud platform should be.

Azure is the cloud platform that'll improve every facet of your IT operations and fully leverage agility. It's just that simple.

## Microsoft Azure is:

- A premier cloud platform featuring over 200 products and services
- Designed to build, run, and manage applications across multiple clouds, on-premises, and at the edge
- Flexible, and lets you choose your tools and frameworks
- Reduced maintenance
- Increased ready-to-market apps
- Operational continuity
- Heightened security
- Scalability
- Complete compliance

Microsoft Azure is the cloud, made simple. Its cloud migration tools accelerate your move using proven Microsoft technologies that make the transition seamless and successful.

Is ideal for complex cloud migration projects

Delivers secure mobile/remote access

Provides cross-product compatibility

Modernizes legacy systems

Supports high-performance cluster computing

Allows for the successful migration of mainframe workload, app and databases

Microsoft Azure will refine and redefine your move to the cloud.
