# HomeaZZon: Unifying Real Estate's 12 Pillars into One Seamless Eco-System

## About HomeaZZon:

HomeaZZon uniquely integrates the 12 pillars of real estate into a single eco-system, enhancing connectivity and efficiency across property management, development, and maintenance. Our comprehensive digital workflows foster transparent communication, empowering property professionals and tenants alike, setting new standards in how real estate ecosystems operate and thrive.

## What we offer

HomeaZZon revolutionizes real estate and property management through a comprehensive digital ecosystem, tailored for each stakeholder in the property development process—from owners to insurers. Our robust mobile app and private label back office serve as central hubs, facilitating seamless interaction and integration for all parties involved.

Unlike fragmented solutions, HomeaZZon offers a single, comprehensive platform uniting all property development stakeholders under one digital umbrella.

**100% Microsoft Tech Stack:** HomeaZZon ensures top-tier security and performance. Our infrastructure is primed for scalability and resilience, integrated seamlessly with Azure's cloud services.

## What our customers are saying (sample)

"HomeaZZon seamlessly integrates all facets of our property operations, enhancing efficiency and tenant satisfaction."

– Will Arnold, CEO, Kee & Will

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
