

Assessment and pilot deployment: 8 Week accelerator

Evaluate your VMware environment, and quickly migrate workloads to Azure

Speed up your cloud journey by evaluating your VMware environment, uncovering key areas for improvement and simplifying your migration to Azure VMware Solution, achieving operational excellence in just 8 weeks. Our 8-week accelerator program provides a risk-free way to explore the advantages of Azure VMware Solution, ensuring a smooth transition with little impact on your business operations. Moving to Azure VMware Solution not only improves your current environment but also prepares you for future growth, using Azure's global scale and advanced capabilities to drive innovation.

Move to Azure VMware Solution Today

- Full picture of existing estate and readiness for cloud.
- Leverage existing tools, skillset and process.
- Defray high licensing cost and lock in lowest rates for the next 5 years with current Microsoft incentives.
- Implement deployment of resources through DevOps processes using Hybrid Cloud in both On-Prem and in Azure AVS infrastructure.
- Bring your current licenses to Azure with VMware Cloud foundation license portability.
- Enhanced security and compliance through rigorous application of industry standards.
