

Cognizant® Manufacturing Agents for Copilot

Empower buyers, sales execs and factory floor managers

From factory floor managers to sales executives to external customers, being able to tap the power of Copilot will help improve service interaction, drive positive business outcomes and allow your teams to act as a larger and quicker organization. Enable clients get information easier and on time.

We will integrate Copilot Chat with your existing software systems to allow you to take advantage of Copilot without a large upfront cost.

Deploy Copilot Agent for Manufacturing to achieve measurable business goals:

- Custom training for the identified persona on how to use Copilot Chat to achieve business goals improvement
- Integration capability to the various ERP, MES, PLM, SCM, etc. systems, both COTS and custom built.
- 1st party Microsoft Copilot Agents (facilitator, researcher, analyst, etc.) included at no additional cost
- Consultation on specific business KPIs and take a baseline prior to Copilot deployment to prove value
- Internally developed software can also be wired into Copilot Chat
- Reporting will show, month over month, progress towards business goals and can be used to tailor specific trainings for parts of the org
