M365 Copilot: Adoption Accelerator Workshop

Equip your organization with the knowledge, strategies, and behaviors to improve efficiency and desired business results through innovative ways of working.

Engagement Highlights

Copilot Capabilities Education / Uncover What's Possible

Drive Behavior with Informed Momentum

Actionable Insights as Blueprint to Plan

Realize Value in Support of Vision

Artificial Intelligence (AI) is currently a prominent topic of discussion and exploration, yet many organizations are only beginning to understand its full potential and the significant value it can add to daily life and professional operations.

Has your organization achieved maximum efficiency across all business areas, or are there unexplored opportunities to do so? Is your leadership prepared to navigate the evolving AI landscape to address its potential impacts on your bottom line and market position?

Enable change and maximize efficiency with our hands–on Copilot Adoption Workshop.

This immersive multi–day experience will help your organization take advantage of Copilot's vast capabilities through thoughtful strategies that instill confidence in your teams to embrace AI ways of working. Through practical guidance and real–world application, employees will be positioned to seamlessly integrate AI into their daily work, reducing misunderstanding and avoidance and elevating Copilot to trusted teammate status.

Let us be your partner and guide as we explore how to drive adoption and efficiency through tailored change advocacy that resonates with your organization and supports your vision and strategic goals.

Why you should attend.

Successful AI adoption requires practical strategies and embedded change advocacy to ensure sustainable impact. This workshop empowers participants to:

Elevate M365 Copilot to a valuable team member that supports your teams and projects in achieving their goals.

Optimize workflows, increase productivity, and elevate decision–making through hands–on experience and M365 Copilot capability building.

Gain a competitive edge by mastering the ability to identify key use cases where Copilot can offer support and generate insights.

Make M365 Copilot a vital driver of your team's success by building a network of change advocates and crafting a clear, actionable roadmap.

What to expect:

Through interactive discussions, live demonstrations, and hands-on exercises, attendees will:

- Learn how to seamlessly integrate Copilot into team dynamics, making AI a trusted teammate.

- Explore best practices for AI-enhanced collaboration and decision-making.

- Develop a tailored change adoption strategy with clear success metrics.

- Build an internal champion network to drive sustained usage and innovation.

| Pre-Engagement Call | Kick-off Meeting | Pre-Workshop Survey | Workshop | Workshop Findings and Recommendations | Strategic Advisory & Planning |

Who should attend?

The engagement is intended for technical and operational decision-makers such as:

- Business Sponsor
- Targeted Business Area Representatives
- Copilot Implementation Team

- Operational Leadership
- AI Enthusiasts
- Internal Change/Training/Comms Teams
