

# Agile supply chain in food manufacturing

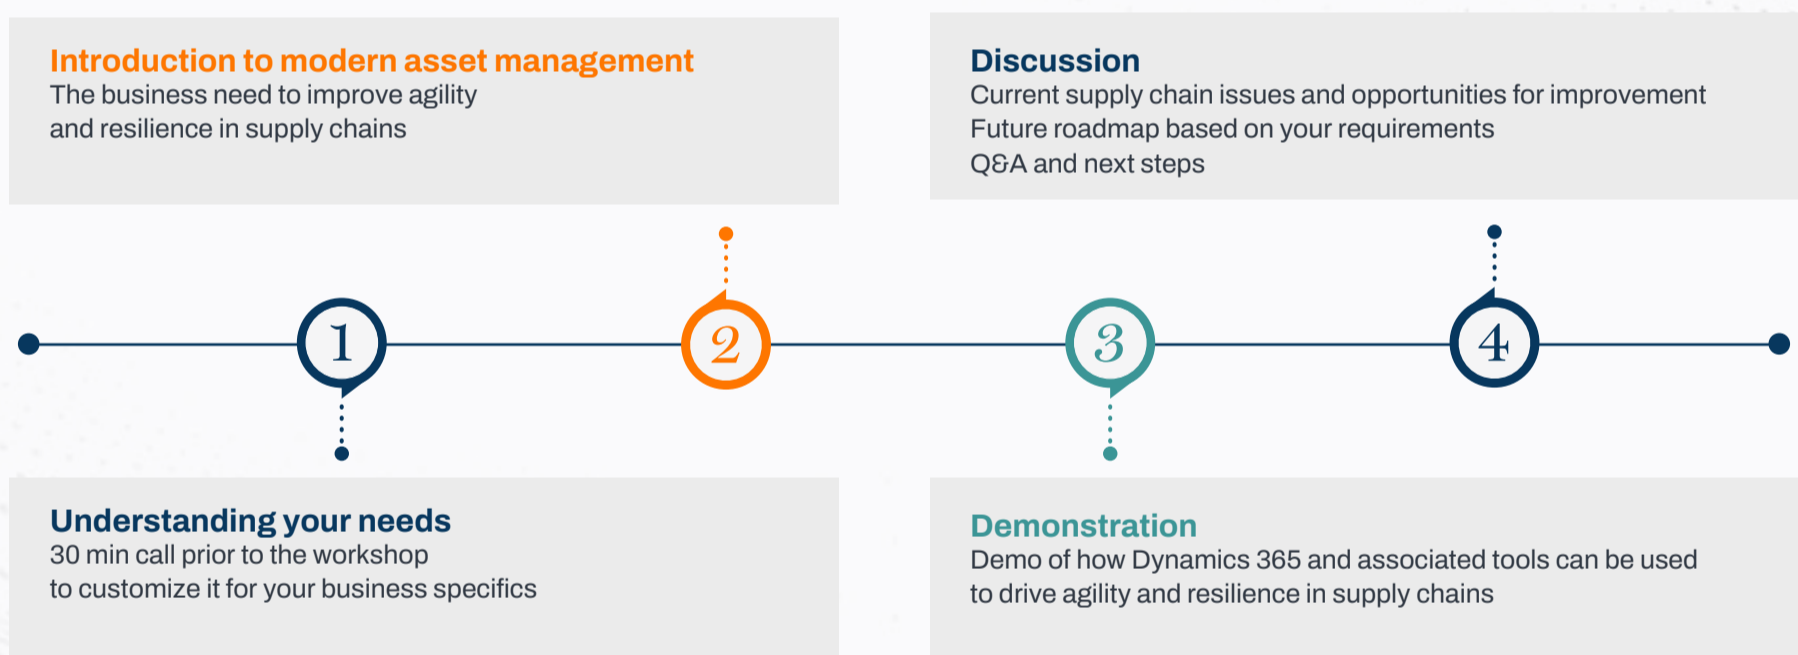

Special Offer

“Agile supply chain in food manufacturing” is a one-day workshop that will help your team to learn:

You don't have to have IT knowledge to be a part of the Workshop. Understanding of your current processes, operational activities & future requirements is the most important part.

## Workshop in details

## Business Use Cases

During the workshop, we will introduce you to the modern supply chain management approach and demonstrate how it can be enabled based on the actual use cases that food manufacturers face on a daily basis.

## Why invest time and effort?

By 2024 manufacturers will lower operational costs by 30% by combining hyper-automation technologies with redesigned operational processes (Gartner)
