

MODERN WORK ADOPTION ANALYSIS

Take full advantage of M365

_What is the MODERN WORK ADOPTION ANALYSIS?

Through the MODERN WORK ADOPTION ANALYSIS, you will gain visibility about how actively your users adopt modern ways of collaboration and the potential of Microsoft 365 in your company

_Topics we focus on

- General usage statistics
- General use of Microsoft Teams
- Application of modern working methods

_Procedure

_What the analysis is based on

- The assessment is based on selected usage reports from the M365 admin portals
- Provided reports are anonymized and provide no clues for performance monitoring

_Your benefits

- Find out to what extent the assigned M365 licenses are actually being used
- See how actively Microsoft Teams is used for collaboration - also with external parties
- Identify clues to take digital, cross-location collaboration to the next level

_Your investment

- 4.900 € (net)
