

Quality Management with Microsoft 365

Unsere Lösung auf einen Blick

Quality Management with Microsoft 365

All ISO-certified companies must document their processes. Our solution offers a quality management system based on Microsoft 365.

- Process Documentation Website: Accessible to all employees, departments, and quality managers.
- Based on SharePoint Online and Power Platform: No additional licenses beyond Microsoft licenses are required.

Features

- User-Friendly Homepage: Personalized dashboard with role-specific content.
- Templates: Ensure a consistent appearance.
- Automations: For approvals, resubmissions, and more.
- Full-Text Search: Easily find what you need.
- Audit-Compliant Versioning: Main and sub-processes.
- Multilingual Support: Available in multiple languages.
- Microsoft Teams Integration: Seamless integration with Teams.
