

# Managed M365

Modernise your workplace and take control with end-to-end management of Microsoft 365.

As more organisations embrace hybrid work, businesses need to provide a secure, scalable and seamless digital workspace that enhances productivity and is easy to manage. However, getting the most from your Microsoft 365 subscription can be challenging.

Managed M365 from CCL proactively manages, monitors, supports and optimises the entire M365 suite for organisations either just beginning or further progressing their modern workplace journey. We take care of your M365 environment, freeing you up to focus on driving value for your organisation.

Managed M365 will help you to drive modernisation faster while assuring security and compliance – ultimately delivering a safe, flexible, and robust service to end users.

CCL provides ongoing migration, deployment, and optimisation across the full M365 suite. With a range of modules across Identity, Security, Productivity, Collaboration, Endpoint and Assets Plus, Managed M365 provides end-to-end management and ultimate flexibility, allowing you can scale up – or down – to meet your organisation's changing needs.

## Benefits

### End-to-end

Optimise your entire M365 suite to help you get the most out of your investment, now and in the future.

### Built your way

Scale across five core functions – mix and match across a range of modules to scale as your business needs evolve.

### Always on productivity

Give your employees access to the tools and services they need to be productive, wherever they are.

### Comprehensive security

Rely on a secure and compliant M365 environment – designed, delivered and operated for you.

### Full service

Take care of the entire breadth of your modern workplace needs with CCL's Managed M365 Service Desk.

### Optimised cost

Optimise costs with access to uniquely bundled and scalable Managed M365 modules.
