EDI

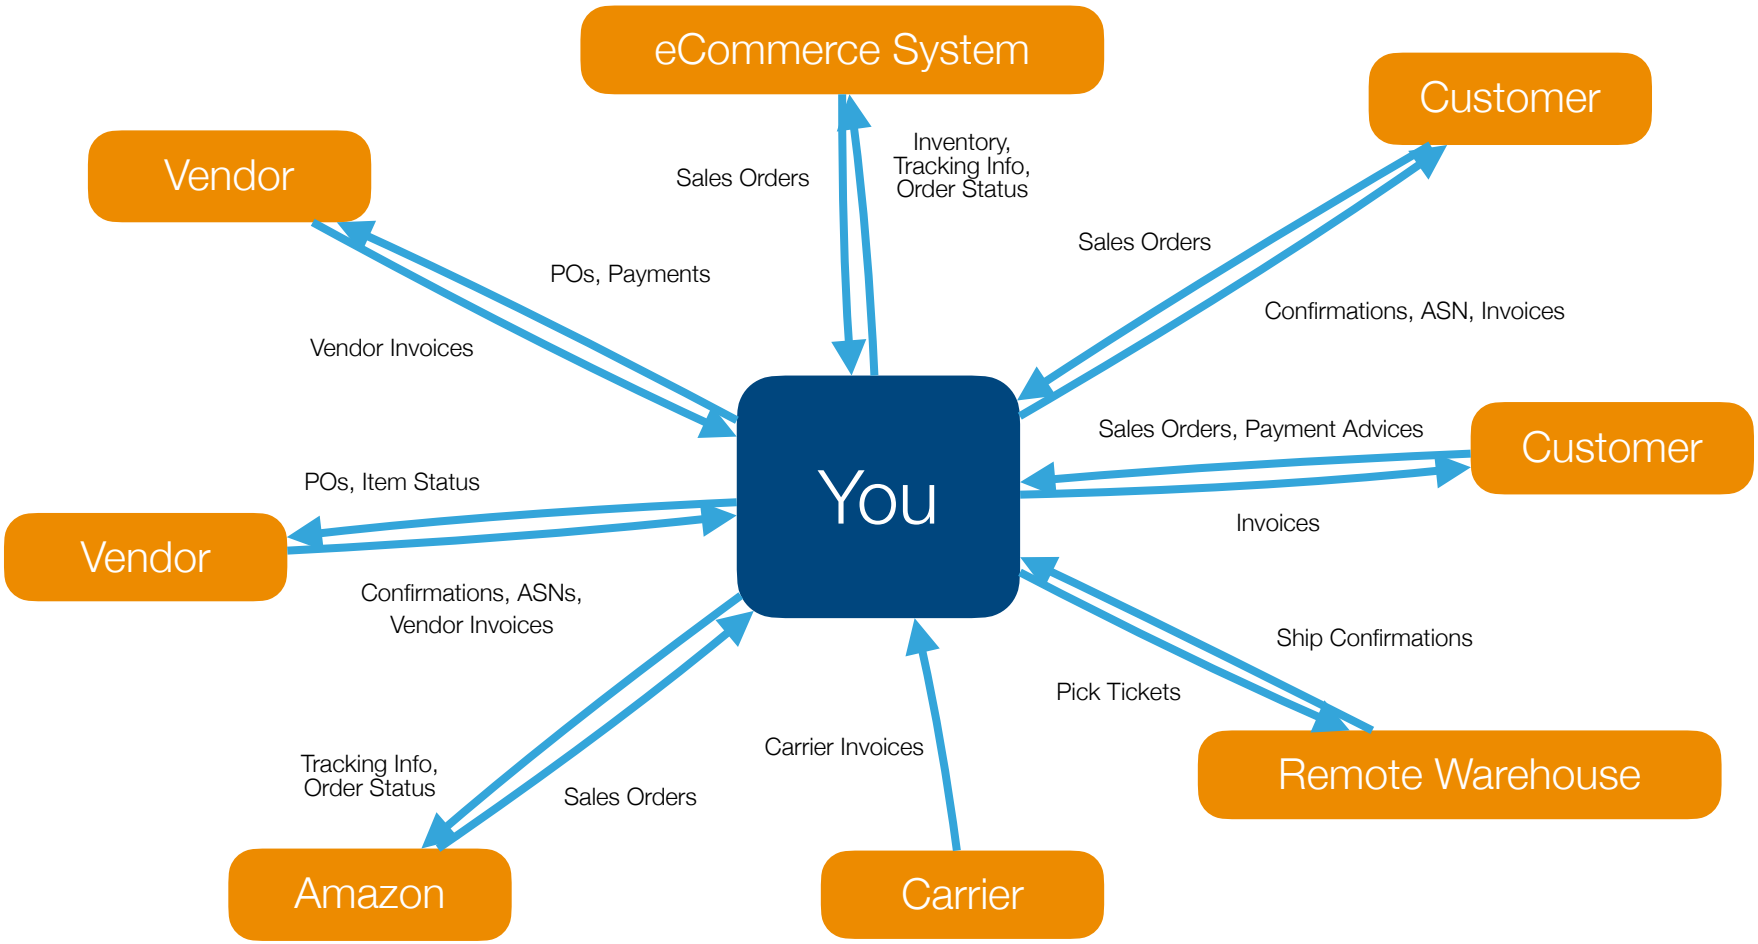
Trading Partner Sampling

- Founded in 2006
- HQ in St. Louis Park, MN
- Comparatio EDI
- Remote Order Entry
- Supplier Gateway

EDI Differentiators

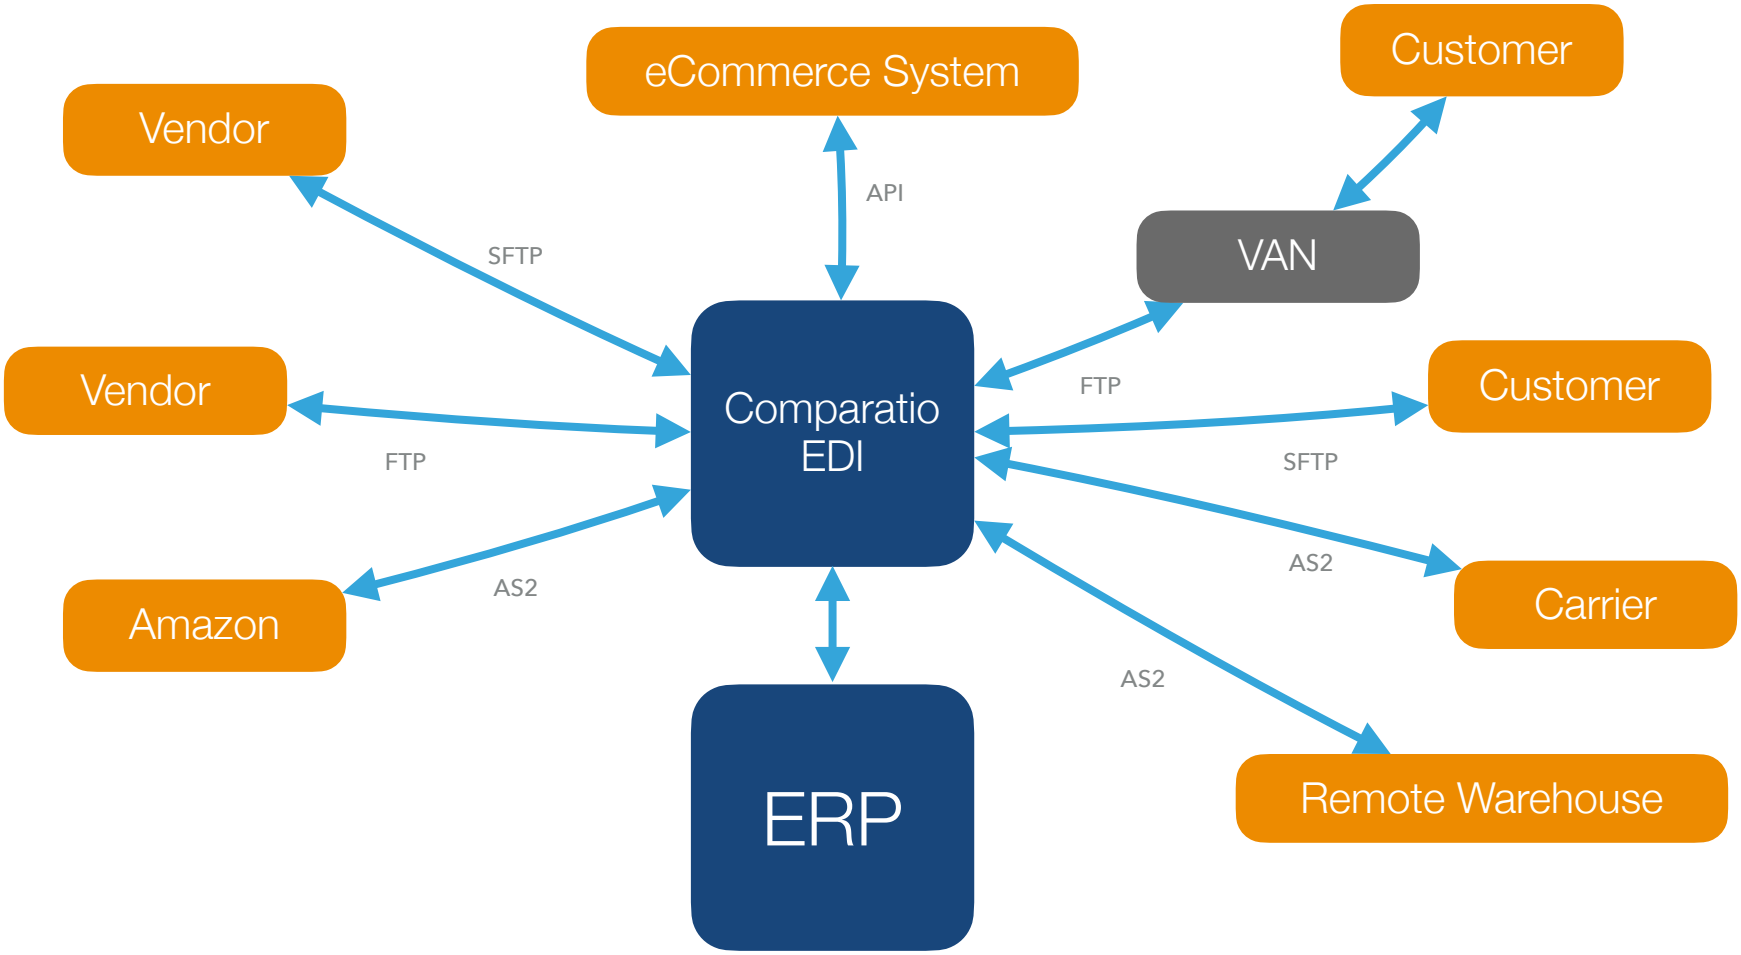
1. We connect directly
2. Unlimited customers, vendors, 3rd parties; any data format
3. We include all mappings and customizations for your business processes
4. We automatically detect errors and correct them
5. We handle outside data and external fields and trace them all through the ERP - important for return documents like ASNs and invoices.

What is EDI?



eCommerce System
Customer
Vendor
Sales Orders
Inventory, Tracking Info, Order Status
Sales Orders
POs, Payments
Confirmations, ASN, Invoices
Vendor Invoices
Sales Orders, Payment Advices
Customer
You
POs, Item Status
Invoices
Vendor
Confirmations, ASNs, Vendor Invoices
Ship Confirmations
Pick Tickets
Carrier Invoices
Remote Warehouse
Tracking Info, Order Status
Sales Orders
Amazon
Carrier

EDI Data Flow



eCommerce Integrations

- Amazon, Magento, SellerCloud, ChannelAdvisor, eBay, BigCommerce, Shopify and Others
- Most eCommerce platforms provide an API to extract data like order information and allow submitting data like tracking updates
- All remote APIs have been integrated into Comparatio EDI, no third parties needed
- Comparatio EDI also provides an API to allow access to data in real-time to authorized third parties, e.g. 3PL
- Amazon integration for both Seller Central - Amazon Seller and Vendor Central - Amazon Approved Vendor

Vending Machine Integration

1. Vending machines can send orders and transaction data as XML file or CSV file
2. Data can be posted directly to FTP server or HTTP(S) server
3. EDI system is utilized to capture vending machine data and translate into orders, inventory adjustments or other transactions
4. Existing integrations for Crib Master and others
