Secure Government Websites in the Cloud

70% of Government Websites Risk Daily Attack

Most Federal, State, and Local government websites run on vulnerable open-sourced platforms or locally developed solutions. These platforms and one-off solutions lack a cyber security roadmap to address vulnerabilities and mitigate risk.

SmartCIte on Azure Government Cloud

SmartCIte is the most secure, enterprise, all-in-one solution for publicly facing websites, SmartCIte is composed of Kentico® CMS which runs efficiently in Azure's Government Cloud. CI's Kentico CMS is used by thousands of organizations around the world and has never had a security breach, making it the perfect choice for agencies seeking modernization and security.

Why SmartCIte on Azure?
