Successfully deploy your Azure Virtual Desktop with Citrix Cloud Virtual Apps and Desktops Service solution.

This service utilizes Compugen's proven methodology coupled with extensive field experience to deploy your Azure Virtual Desktop (AVD) with Citrix Cloud Virtual Apps and Desktops Service solution.

Regardless of whether your Citrix deployment involves on-premise, cloud, or a hybrid cloud environment, Compugen has the expertise to deliver the right experience for your business. During the AVD with Citrix deployment engagement, Compugen will assist in building the core AVD and Citrix environment, including the required backend resources.

Choose the option that best meets your requirements:	Basic	Standard	Premier
As-built documentation	High-Level	Detailed	Detailed
Number of pilot users (up to) **	10	25	100
Sites, data centers, and clouds	1	1	2
Number of use cases (host pools/machine catalogs)	1	2	3
Application integration (i.e., number of apps), up to	20	50	100
Citrix Application Layering (if applicable)		Single platform	Multiple platforms
Systems monitoring and reporting (e.g., Log Analytics)	•	•	•
Machine Creation Services (MCS)	•	•	•
Provisioning Services (PVS)		•	•
Citrix ADC integration (if applicable)		•	•
Workspace Environment Manager (WEM)		•	•
Graphics Processing Unit (GPU) integration			•
Failover testing (Citrix only)			•

**Additional units available.

Benefits

- Improves virtual environment efficiency and visibility

- Increases productivity and reduces complexity

- Improves overall virtual infrastructure reliability and availability

Applicable Technologies

- Citrix Cloud

- Citrix Virtual Apps and Desktops

- Citrix Gateway

- Microsoft Azure/Azure Virtual Desktop

- Remote Desktop Services (RDS)

- Windows 10 EMS, Windows 7 (Extended Security Updates to January 2023)

- FSLogix

- Office 365 Pro Plus

Approach

What we do

- Deploy all components of the AVD with Citrix solution per the provided design

- Deploy core components including Cloud Connectors and StoreFront (if applicable)

- Install and configure desktop and/or server images

- Implement systems monitoring and reporting

- Deploy and configure user profiles (e.g., FSLogix) and Citrix-related policies

- Engage with and support the initial transition to operations

- Oversee initial pilot and resolve technical issues

- Provide knowledge transfer and detailed as-built documentation

- Ensure that the deployment activities conform to your organization's change management protocols

What you get

- Detailed as-built documentation which shows all required steps for deployment

- A pilot deployment with support

- Failover testing (Premier Tier only)

What we need

- Design documentation completed by Compugen or Citrix Consulting Services prior to deployment project

- Any existing or legacy documentation for review

- Appropriate access and resources to work with Compugen staff

- Project management and/or oversight for consultant activities

COMPUGEN

Simplifying the business of technology ... together

Pricing

Pricing	Basic	Standard	Premier
Fixed fee	$24,875	$64,875	$98,875
Invoice type	One-time	One-time	One-time
Service code	PSV-0877	PSV-0878	PSV-0879
Out of Scope	• Azure Active Directory (Azure AD) implementation • Azure landing zone design and implementation		

Why Compugen

Compugen is a recognized Canadian leader in virtualization solutions.

Skilled and experienced virtualization experts who understand the full potential for virtualization across your entire IT infrastructure and recommend solutions to help deliver your strategic IT and business goals. Compugen is the only Platinum Plus Solution Advisor in Canada, which is the highest medallion level for Solution Advisors. Compugen is a Microsoft Gold partner, holds the Azure Virtual Desktop Advanced Specialization from Microsoft and is a VMware Principal Partner for Data Center and Virtualization.
