

Azure Virtual Desktop FastTrack

SERVICE DESCRIPTION

The Azure Virtual Desktop FastTrack enables customers to quickly determine requirements, design, and deploy multi-session Windows 10 virtual desktops on Microsoft Azure.

In most scenarios, customers are already entitled to deploy the Azure Virtual Desktop Service via existing entitlements from: Office 365 Enterprise and/or Windows Server Remote Desktop Service (RDS) with active Software Assurance.

Benefits

- Deliver the only multi-session Windows 10 experience
- Enable optimizations for Office 365 ProPlus
- Migrate Windows Server (RDS) desktops and apps
- Deploy and scale in minutes
- Reduced administrative burden of Windows 10 image management
- Additional incentive funding available from Microsoft for production pilot implementation, pending program availability and approvals
- Reduced total number of Windows 10-enabled VMs on Azure via multisession OS
- Promote CAPEX efficiencies by extending the life of existing user endpoints when used in conjunction with thin client software
- Windows 7 support until January 2023

Approach

What we do

- Schedule and conduct business, technical, and interactive design sessions at a single location with your team, as well as capture document design decisions based on detailed discussions
- Investigate eligibility for Microsoft incentive funding for Professional Services and/or Azure credits
- Azure tenant preparation for AVD
- Creation of one (1) host pool for deployment
- Deployment of master image for up to 25 users
- Integration of up to 5 standard applications
- Deployment of FSLogix for profile management
- Testing and remediation of technical issues

What you get

- High-level design deliverable in memorandum format and presentation of the AVD solution
- Up to 8 hours of technical assistance
- Knowledge transfer and as-built documentation

What we need

- An appropriately configured Azure landing zone, ready for use with AVD
- Any existing or legacy documentation for review
- Appropriate access and resources to work with Compugen staff
- Project management and/or oversight for consultant activities

Pricing

Fixed fee	\$11,875
Invoice type	One-time
Service code	PSV-0827
Out of scope	Non-standard (i.e., custom, non-COTS) application profiling and packaging

Why Compugen

A recognized leader in cloud migration planning and execution, including the deployment of thousands of virtual desktops, Compugen is a Microsoft Gold Partner in cloud services. Compugen has many experts across the End User Computing and Azure spectrum to support customers, regardless of where they are on their respective journey to the cloud.
