

# Microsoft 365 Copilot Envisioning Workshop

Service Description

COMPUGEN  
Dream. Design. Deliver.

## Artificial Meets Human

### Take the First Step in Your Adoption Journey

Artificial Intelligence (AI) is helping organizations unlock new possibilities in productivity, creativity, and collaboration. The potential is endless. At Compugen, we believe that technology is never the end-result, but the ultimate enabler. With human intuition and insights, we make the potential and possibility of AI a reality, *transforming inspiration into impact.*

You may be wondering:

- Where can AI provide the biggest value in our organization?
- Are our people, processes, and platforms ready for Microsoft 365 Copilot?
- What is my total AI investment, and will it be worth it?

To help you answer these perplexing questions, you need the **Microsoft 365 Copilot Envisioning Workshop by Compugen**. This workshop is *the first step in your AI transformation journey*. As your Technology Ally, we think differently, helping you understand Microsoft 365 Copilot's capabilities, identify practical applications, and assess the potential benefits that Microsoft 365 Copilot can deliver to your business. This workshop leaves you empowered to adopt AI by:

- highlighting real-world applications for integrating Microsoft 365 Copilot into your business,
- creating a human-centered, pragmatic, and holistic approach to ensure your organization is ready to adopt Microsoft 365 Copilot, and
- prioritizing your goals and unique business outcomes to deliver maximum business impact and greater employee satisfaction.

You'll leave this workshop with a technology alliance committed to an unending pursuit to uncover your *why*. **This translates into an AI journey with a clear path forward.**

### Workshop Benefits

- Learn how Microsoft 365 Copilot can transform your business.
- Receive recommendations aligned with your unique business vision.
- Experience engaging demos that highlight the potential of AI.
- Develop a strategic roadmap for a prioritized and practical AI implementation targeted to your business needs.
- Mitigate potential risks through early identification, assessment, and planning.

# Microsoft 365 Copilot Envisioning Workshop

Service Description

**COMPUGEN**  
Dream. Design. Deliver.

## We Deliver Experience by Design

### Dream

We will be with you every step of the way; improving, innovating, and enabling you to realize more than ever before. Through careful assessments and preparation, we will:

- review our readiness questionnaire and scorecard,
- identify key business decision-maker stakeholders, and
- guide you as you consider your challenges and opportunities.

### Design

Let's capture the Art of the Possible. Technology is the conduit, but our people are the connection. They are the difference between what could be, and what will be. We will:

- provide an overview of Microsoft 365 Copilot,
- highlight the synergy between Microsoft Teams premium and Microsoft 365 Copilot in Teams, and
- introduce Microsoft 365 Copilot Personas showcasing AI-powered opportunities for your organization.

### Deliver

With your business, employee, and customer experience in mind, you get a strategic plan for testing Microsoft 365 Copilot complete with:

- usage scenarios based on your business priorities,
- blueprints of personas mapped to your business challenges; and
- details for the Microsoft 365 Copilot Empowerment Assessment preparing you for the next step in your AI journey with Compugen.

## Driven to Make a Difference *for You*

Through deep discussion and challenging inquiry, we become your technology partner. Together we embrace diverse perspectives, celebrate unique views, and develop a trusting relationship. We support you as if your business was our own. The result of this workshop is a plan to achieve your business outcomes and realize new possibilities.

1. **Executive Report:** A detailed report capturing the workshop recommendations, scorecard, and technical guidance to ensure your organization is primed for Microsoft 365 Copilot.
2. **The Art of the Possible:** An innovative presentation that educates and excites your team. With transformative goals in mind, you'll receive an outline for Microsoft 365 Copilot features and its integration with Teams.
3. **Strategic Enablement Plan:** A high-level journey-map demonstrating the Proof of Concept for Microsoft 365 Copilot; specifically prioritized scenarios, potential risks, and next steps tailored to your unique challenges.

Compugen is uniquely positioned to assist you with the first step on your AI enablement journey with Microsoft M365 Copilot. We have in-depth, infrastructure transformation skills and practical experience, combined with a collaborative approach. We look forward to being your Technology Ally on this exciting journey.
