 <p>Infrastructure Azure</p> <p>Specialist Infra and Database Migration Azure Virtual Desktop Networking Services</p>	 <p>Data & AI Azure</p>
	 <p>Digital & App Innovation Azure</p>

What is the CSI Program?

The Cybersecurity Investment program is an invite-only investment program that has been created to support selected partners in assisting customers with understanding and deploying Microsoft security technologies and solutions.

There are several engagements funded by Microsoft for **Data Security**, **Threat Protection**, Microsoft **Sentinel** and **Managed Detection and Response**.

These can only be delivered by approved CSI partners.

Funded Engagement!

Learn how to put next-generation Microsoft Security tools to work for you.

Threat Protection

The Threat Protection Engagement is designed to help you understand and deploy advanced Microsoft Security products, including **Microsoft Defender XDR** and **Microsoft Sentinel**.

You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to remediate vulnerabilities and upgrade your security posture for the long term.

Threat Protection Engagement includes the following activities:

- Review your security goals and objectives
- Identify real threats and discover vulnerabilities in your environment
- Identify real threats and discover vulnerabilities in your environment
- Develop joint plans and next steps

Improve your security posture with a Threat Protection Engagement

Funded Engagement!

Identify data security risks in your organizational data

Data Security

The Data Security Engagement is designed to help you understand and deploy **Microsoft Purview solutions**.

By providing real data driven examples of data security and regulatory risks in your own environment, the engagement helps you remediate and prevent data security risks using **Compliance technologies**

Engagement Topics include:

- Understand the risks of Dark Organizational Data
- Learn about the risks organizational insiders may impose
- Assess your environment against key data protection standards
- Receive an analysis and report on findings and associated risks
- Learn about tools and services that can help mitigate risks
- Explore recommendations and next steps

Intelligently investigate and take action on data security risks.

The Fine Print

How to get started

Contact your CompuNet Account Executive today...

- CompuNet will Nominate your company, and if approved, you have 30 days to provide engagement consent via email back to CompuNet
- Review and sign our Statement of Work for your engagement
- Upon final approval with the CSI team, we have 90 days to complete the engagement
- Complete a survey on the completed CSI engagement
- CompuNet will submit Proof of Execution to Microsoft and request payment
