Copilot Vision & Value Engagement

Our workshop empowers your team to strategically harness Microsoft 365 Copilot. Engage your stakeholders, equip your team with essential knowledge, develop a deeper understanding of technical readiness for Copilot, and prioritize high-value business scenarios. With guidance from our expert engineers and adoption specialists, we will help prepare you with a customized implementation roadmap, ensuring informed decisions and a successful Copilot integration.

Inspire

- Align your Copilot stakeholders and cultivate a shared vision for impactful decision-making

Assess

- Understand Technical Readiness
- Develop High-value scenarios and role-based use-cases
- User enablement best practices

Design

- Develop Business Case
- Executive Summary Review
- Implementation Roadmap

Who is this engagement intended for?

Organizations that will benefit from driving stronger organizational readiness for Copilot.
