

Modernize Communications Workshop

Calling with Microsoft Teams Phone

Now more than ever, businesses need a modern voice solution and phone system capabilities that combines unified communication and teamwork. Microsoft Teams Phone provides the features organizations need to deliver seamless, collaborative experiences for employees, business partners, and customers. Because implementation of calling solutions can be complex and involves network remediation, Microsoft 365 service deployment, telephone number provisioning/porting, and device deployment, customers need partners with this highly specialized skillset.

Learn how to modernize your voice solution to enhance collaborative experiences for your employees, business partners and customers.

With this three-day workshop, we'll show you how you can leverage Microsoft technologies to:

- Evaluate your current telephony and PBX needs
- Improve communication through Microsoft Teams Phone and Team Calling experiences
- Transition various user profiles into a modern collaboration and communication environment
- Use third-party applications and devices that can complement the Microsoft Teams Phone experience

Workshop Highlights

Gather information on current environment and practices for calling scenarios

Showcase modern calling capabilities powered by Microsoft Teams Phone

Build a plan for how to deploy and adopt Microsoft Teams Phone
