

# Cloud Migration Offering

## Description

We execute large scale migrations of virtual machines to Azure leveraging the Azure Cloud Adoption Framework and Microsoft Azure Migration and Modernization Program.

## Who we Help

- CIO / Vice President of Infrastructure

## Problem We are Solving

- Customer needs to move from datacenter to the cloud
- Desires implementing migration best practices
- Lack of capacity, knowledge, or both

## Outcome of Offering

- Target resources are migrated and operationalized
- Conversion to infrastructure-as-code, network micro-seg
- Operational handoff completed with optional DigiOps

## Why Us:

- Migration + best practices
- Adoption of modern operational state
- Capability to leverage AMMP migration funding

## Cost, Resource, Time

- \$120k - \$2m
- 2 – 3 months
- Architect, Engineer

## Next Step:

- Next Project: Digital Operations
- Next Project #2: M&A Migration Project (if not in-flight)
- Adjacent Project: App Modernization
