# SEAMLESS VMWARE MIGRATION TO AZURE

Unlock speed, scale, and savings by moving your VMware workloads to Azure .

Concurrency

Overview

Concurrency accelerates your migration from VMware to Azure using Azure VMware Solution (AVS)—a fully managed, VMware-native environment running on Azure. We help organizations seamlessly lift and shift or extend their existing vSphere workloads with minimal disruption and maximum efficiency, unlocking the full value of cloud-native scale, security, and services.

Why Choose Concurrency?

Microsoft-Certified AVS Expertise: Proven delivery from assessment to production using Microsoft best practices.
Fast, Low-Risk Migration: Near-zero downtime with HCX and vMotion on managed Azure infrastructure.
Cost-Optimized with Hybrid Benefit: Lower costs by reusing licenses and accessing free security updates.

Ready to modernize your VMware environment with minimal disruption? Contact Concurrency to get started.

Partner with us to overcome these challenges:

Data Center Retirement

License & Cost Uncertainty

Maintaining Business Continuity

Security & Compliance Gaps

Skills & Management Challenges
