

FABRIC IMPLEMENTATION

Unlock the full potential of your data with Microsoft Fabric and Concurrency's expert implementation.

Overview

Concurrency helps organizations unlock measurable value from their data by implementing Microsoft Fabric, an integrated analytics platform that empowers everyone—from CEOs to frontline employees—to gain actionable insights and drive business outcomes.

Why Choose Concurrency?

Concurrency's Microsoft Fabric Expertise:

Proven partner in Microsoft's Fabric program, delivering fast, repeatable implementations to unlock value quickly.

Structured, Repeatable Process:

Our quickstart approach accelerates adoption and ensures alignment with your business goals.

Results-Driven Engagement:

We measure success with clear KPIs and continuously optimize to maximize business impact.

Ready to unlock the power of your data?

Contact Concurrency today and start driving smarter, data-driven decisions.

Partner with us to overcome these challenges:

Data Silos:

Underutilized and disconnected data across the organization limiting insights.

Unclear Value:

Difficulty turning raw data into measurable business outcomes.

Insight Gaps:

Challenges extracting clear, actionable insights from complex data.

Lack of Governance:

Insufficient tools and expertise to unify and manage data effectively.

What You Get:

- ✓ Measurable business impact from actionable data insights
- ✓ Unified data analytics across lakes, warehouses, and real-time streams with Microsoft Fabric
- ✓ Empowered teams able to collaborate and innovate using one integrated platform

Investment Range:
\$80-500k

Timeline:
3-11 months
