

# MERGERS, ACQUISITIONS & DIVESTITURES

Confidently navigate transitions with Concurrency's resource-savvy, user-first approach.

Concurrency

## Overview

Concurrency helps organizations navigate complex M&A and divestitures with fast, low-disruption IT integrations and separations. From Day 0 planning to post-TSA execution, **our proven methodology ensures a smooth, secure transition**—reducing time-to-value and setting the stage for long-term success.

## Why Choose Concurrency?

**Expertise:** Deep expertise in large-scale migrations, including 300,000+ user environments and global organizations.

**Expert Delivery Team:**

Direct access to Microsoft product teams and a cross-functional team with deep technical and industry expertise.

**Reliable Process:** Refined migration playbooks that reduce risk, accelerate timelines, and drive consistent outcomes.

**Ready to navigate your next merger or divestiture with confidence?** Contact

Concurrency today to take the first step toward a seamless, secure transition.

## Partner with us to overcome these critical pain points:

Legacy Infrastructure

Business Continuity

Security & Compliance Gaps

Limited Internal Resources

Company Transitions

TSA Deadlines

## What You'll Get:

1

### Comprehensive Migration & Integration Execution

Includes Office 365, Azure, and desktop environment migration, along with collaboration and communication optimization.

2

### Target-State Architecture & Security Alignment

Design and implementation of your future-state IT environment with cloud identity, access, and security best practices.

3

### TSA-Driven Project Management

A structured, deadline-focused approach to meet TSA requirements with minimal disruption to business operations.

Investment Range:  
\$500k - \$2m

Timeline:  
3-11 months
