# AZURE GOVERNANCE & PLATFORM

Confidently scale your cloud environment with Concurrency's governance-driven, enterprise-ready approach.

Concurrency

Overview

Concurrency helps organizations build secure, scalable Azure environments by designing and implementing governance frameworks and enterprise-grade landing zones. **Our proven approach accelerates cloud adoption, reduces operational and compliance risk, and empowers internal teams** with the structure and tools they need to manage and grow their cloud environment confidently.

Why Choose Concurrency?

Repeatable & Fixed-Bid Model: Proven Azure-ready offering designed for clear outcomes and predictable delivery.

Thought Leadership: Guided by presenters and contributors to Azure governance best practices

Platform Funding Expertise: Ability to leverage Microsoft AMMP funding to offset costs.

Ready to establish a secure, scalable cloud platform? Contact Concurrency to build your governance framework, deploy a strong landing zone, and empower your team.

Partner with us to overcome these critical pain points:

Unprepared Cloud Environment

Scalability Risks

Missing Governance

Security & Compliance Gaps

Untrained Teams

Inefficient Cost Management

What You'll Get:

1 **Governance Spec & CoE Plan:**
A technical governance framework, documented roles, and Center of Excellence structure.

2 **Deployed Landing Zone:**
Enterprise-scale landing zone with management groups, policies, RBAC, identity, networking, logging, and cost controls.

3 **Upskilled Staff:**
Custom training plans to help your teams operate and extend the environment.

Investment Range: $80-150k

Timeline: 2-3 months
