Identity Management for Higher Education: 3-day Workshop

Condatis offers a workshop aimed at universities looking to improve their Identity and Access Management (IAM).

This workshop will demonstrate how your institution can implement an identity solution fit for centralised, decentralised and hybrid scenario, with a focus on student experience.

As a world-leading identity firm and Microsoft Solutions Partner, Condatis can offer expert solutions based on Microsoft Azure Active Directory B2C and Entra Verified ID.

During the workshop you will collaborate with a team of identity experts and strategists who will help you improve your identity journey through streamlining the authentication processes and adding level of security. At the end receive a roadmap to reducing administrative overheads and manual effort, resulting in considerable cost benefit and increased desirability of the University.

The assessment includes:

1 x ½ day workshop | Identity Fundamentals on Azure

1 x ½ day workshop | Azure AD Verifiable Credentials and Decentralised Identity

1 x ½ day workshop | University requirements and current identity journey assessment

1 x ½ day workshop | Future roadmap solution design

1 day documentation | Scoping and recommendation document including implementation plan. Indicative timeline and project plan document.

condatis

Microsoft Solutions Partner

Condatis is a UK leader for **bespoke external identity** solutions and **decentralised identity integration**.

We are a specialist partner in **Microsoft Entra** External Identities on **Azure AD B2C**, **Entra Verified ID**, and decentralised identity technology.

Our tailored solutions **facilitate innovation** and **build safer digital journeys.**

Our team comprises over 50 specialists in **Identity and Access Management**, designing and implementing solutions for our clients while developing our new product in the **decentralised identity** space.
