# Conduent Loan Manager Solutions

Easier, faster, amazing!

All the power, business logic and performance of mainframe-based systems with a state-of-the-art graphical user interface delivering modern browser-based ease and speed.

Conduent Loan Manager is a revolutionary browser-based interface that completely transforms the user experience, enabling loan servicers and collectors to operate more effectively than ever.

**A transformation in loan servicing and collections**

Welcome to the new world of loan servicing... A world in which you can manage loans and collections from a single screen; find and edit data quickly and easily without having to scroll or switch between windows and systems; view detailed account information immediately with a single click; and experience loan servicing as you never have before.

**Everything you need in one place**

The days of having to bounce between screens, do a lot of scrolling, switch between systems to find information, or memorize an endless assortment of codes – are over!

The business logic, power and performance of mainframe-based systems are supercharged in Loan Manager – through an intuitive user-friendly interface that enables breakthrough ease and efficiency in loan servicing and collections.

You'll find so much useful information on one screen that you'll wonder how you ever managed before!

**Countless benefits:**
• Intuitive system navigation

• Huge time savings

• Broad account information on a single screen

• Greatly reduced operator errors

• Drastically reduced training requirements

• One-click drill downs to more information

• Loan servicing and collections information brought together for simple access

• One-click access to account summary from any screen

• Built-in auto dialer controls

• Customizable to your unique needs and requirements.

# Loan Manager Platform Services

## Short list of features:

**Account search** – by account number, social security number, name, VIN number, or phone number.

**Loan dashboard** – contains a wide assortment of information for a specified account from the servicing retail and collections systems – providing a great snapshot and overall status of an account.

**Information updating** – can be done directly on most screens.

**Payoff quotes** – available with one click from the Loan Dashboard screen.

**Activity notes form** – provides an entire history of activity notes on one screen, or use a variety of filtering options to refine your view.

**Collapsible panels** – allow you to view only the information you want to see on a particular screen.

**Transaction history screen** – shows all transactions on an individual account and allows a tailored view through a variety of filtering options.

**Monetary transaction screen** – allows posting of one or multiple monetary transactions at the same time.

**Customer information screen** – provides both a summary and ability to drill down into detailed customer information.

**Quick account summary information** – available on every screen by clicking on the arrow in the upper right blue area.

**Collateral screen** – easily accessible along the left hand column with a simple click that takes you to an assortment of collateral information with additional tabs such as title, insurance and others.

**Integrated auto dialer** – accessible in the upper right of every screen has drop-down options for setting calling parameters, sorting and handling queues and initiating calls to customers with key account information at your fingertips.
