CB SUPER SECURE EXCHANGE SERVER

- Built on the CB Exchange Server Sync concept

Prevent Hackers using Exchange as entry point to secure network

CB Super Secure Exchange Server is the solution that allows people access their Exchange/ Outlook mailbox items outside the local network, for example, from their mobile devices, without any problem of getting hacked.

This solution is especially important for high-security enterprises – financial or legal establishments and the public sector.

Thanks to the isolation of environments, you are not exposing your corporate Exchange server to the outside world and guarantee its security.

How to ensure secure and easy Outlook-Exchange Synchronization

Current work realities often demand special use of email and calendar. Firstly, heightened security and compliance issues push companies to the industry leaders towards business-class email and collaboration
solutions. And secondly, the tendency to have more than one job, the increase of gig economy and popularity of a side hustle requires us to have **multiple email accounts** and constantly switch between them to catch up with new appointments etc.

Since Exchange/Outlook is the most widespread business mailbox service, in this article we will discuss secure ways of Outlook-Exchange synchronization for better work productivity.
