Connecting Software

CONNECT TO DYNAMICS 365 FINANCE AND OPERATIONS

Integrate your Dynamics 365 Finance and Operations data with your custom software and databases

Connect Bridge

Move on from Dynamics AX to the cloud

Dynamics 365 Finance and Operations and **keep any existing integrations** with other software and databases you have.

Use **Connect Bridge**, the ultimate integration platform, to move or sync your data from on-prem to the cloud while keeping everything you already have in your system running smoothly and entirely secure with full encryption.

Connect Bridge is a powerful integration platform that allows you to **build your custom integration with much fewer lines of code**.

Upgrading the right way

Get the advantages of upgrading to Dynamics 365 and guarantee that

- The data you need is moved or synced

- The software that integrated with AX keeps working

- The databases that were fed from AX's data still get the necessary data

You can get all this by using Connect Bridge and standard SQL only. No need to learn or use Dynamics' API.
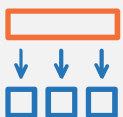

Features

API
No need to study API of target systems

Forward compatibility guarantee

Keep your data safe – no direct access

From any software to Dynamics 365 FO

SQL
Utilize all the power of SQL, including Joins

Your custom solution with 100% control

How to Integrate Dynamics 365 Finance & Operations and Business Central with Any Software for Live Data

Cloud ERP systems are revolutionizing the ways companies do business right in front of our eyes. One of the key players changing the business world is Microsoft with their Dynamics 365 software. According to Capterra's research done in January 2019, Dynamics 365 cloud ERP systems are holding second place with 3.8 million users worldwide and cutting the distance to the first place at jet speed. Microsoft's rebranding and upgrade of Dynamics Nav and AX in 2018 into Business Central and Finance and Operations, respectively, was so successful it has boosted their global deployment ...
