

# CONSENSUS

Live meetings: face-to-face, virtual & hybrid

## “The Problem”

In a complex modern environment organizations often need to deploy a multitude of software platforms to support their strategic projects. This results in complex software landscapes creating barriers to engagement.

### Why

To remove barriers to engagement & drive desired employee behavior internally and externally

### What

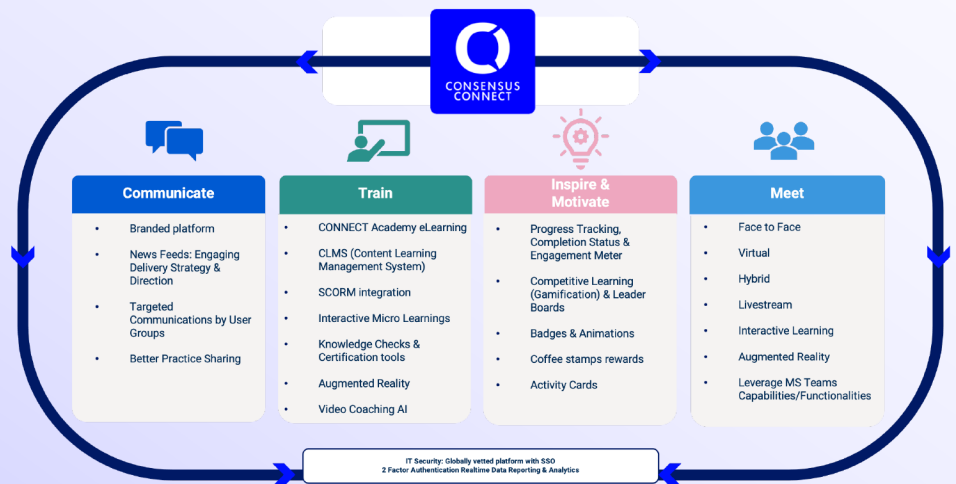

CONNECT is a modular Strategic Engagement Platform with tailored end-user experiences matching the objections and goals of the Strategic projects it supports

### How

Leverage a proven and secure platform combining tools to Communicate, Train, Inspire/Motivate & Meet – all within one innovative platform.

## EXAMPLES

- Investigator/Results Meetings
- Speaker Trainings
- Product Launches & Company Updates
- Training & Engagement
- Educational Programs
- Congress Activities
- Investigator/Results Meetings
- Augmented Reality Immersive Learning
- Ad-boards
- + Many more

Live meetings

We take pride in managing fully customisable meeting tools, that are designed with specific meeting & purpose in mind. This means, that the meeting application is viewed as a modular experience, which can be customised according to different budgets & requirements

Virtual meetings

The Consensus Virtual meeting tools offers you everything from livestreaming to video rooms integrated into the Consensus Meeting platform, giving you the options to fully tailor your event

E-Learning & on-demand

Our E-learning system can be used as a stand-alone or together with other app modules leading up to a meeting. The elements can be customized to meet specific needs

Augmented Reality

Facilitates immersive learning AR experiences with real time data transfer & integration. Create a fun way to launch extra content from images, videos or quizzes to interactive 3D models
