

CONSEIN

Beyond Office 365

Most companies only use 20% of the Microsoft Office tool 365, in many cases only Outlook and Microsoft Office (Word, Excel, Power Point).

Challenges

- Lack of teamwork
- Information displayed in work teams without control or possession of the company
- Purchase of other technological tools, when these tools already exist in the company

Solución Ideal

- Knowledge of the use of technological tools that accelerate digital transformation
- Encourage collaborative work and innovation
- Achieve a change in organizational culture

Desired results

- People working collaboratively and exchanging information
- Company moving towards digital transformation through the use of technological tools
- Stimulation of creativity and co-creation of products and services

Connect to Digital Transformation with O365

Training

- Knowledge of collaboration tools for their correct use
- Training structure segmented
- Training content prepared by specialists in the area

Empowerment

- Employee empowerment
- Allows you to communicate from clear and simple way
- Motivates the employee to get the most out of their knowledge

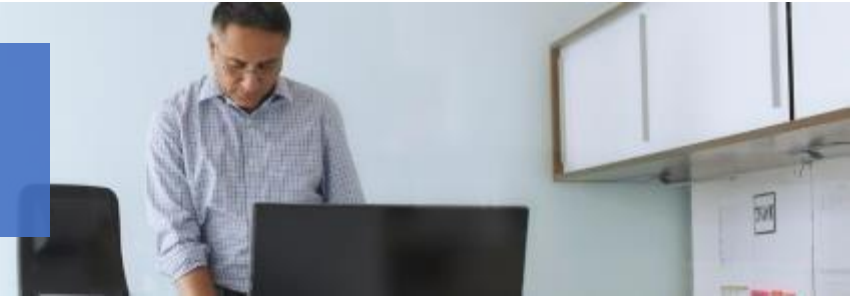

Collaboration

- Promotes collaboration in an open environment
- Offers a set of collaborative tools
- Provides Networks Collaborative

Creating a world of opportunities with O365

CONSEIN
