

Cloud Adoption Framework for Azure: Strategy and Plan 1-Week Assessment

Advania's Azure cloud adoption strategy and plan assessment provides a guided Azure adoption experience with tools-based discovery, expert recommendations, and outcome-focused cloud adoption plan.

Advania is pleased to offer our cloud adoption strategy and plan assessment for Microsoft Azure, which provides a proven methodology and suite of services that delivers value across the early stages of your cloud transformation journey.

Our assessment will provide your organisation with a clear high-level cloud adoption strategy and plan to accelerate your journey into Microsoft Azure cloud technologies during a typical 1-week engagement.

Assessment prerequisite:

This assessment has a dependency on the customer completing a Microsoft business economic assessment or Azure cloud migration assessment which is a 30-day tools-based analysis with cost and financial reporting that is used to build a cloud adoption strategy and plan.

Microsoft Partner
Azure Expert MSP

Advania will work with your organisation to deliver:

Cloud Discovery:

- Commercial and technical validation of discovered resources and refinement of customer migration scope

Cloud Adoption Strategy:

- Cloud Adoption Strategy Assessment
- Cloud Adoption Business Motivations
- Cloud Adoption Business Outcomes
- Cloud Adoption Business Justification
- First Project Identification and Qualification
- Cloud Journey Tracker Assessment

Cloud Adoption Plan:

- High-level Plan Assessment inclusive of:
 - Digital Estate Review
 - Initial Organisation Alignment
 - Skills Readiness Gap/Plan
 - Cloud Adoption Plan
 - Strategic Migration and Assessment Readiness Tool
- Personalised Strategy and Plan presentation highlighting your next steps to Ready and Adoption migration planning

As one of the few aligned Microsoft Solution Partners in the UK and an Azure Expert MSP, Advania is ideally placed to engage Microsoft on our clients' behalf to secure additional benefits through the Azure Migrate & Modernisation Program, which can support the cost and accelerate the timetable of the overall project.
