

# Microsoft Power BI Concept in a Week

## Launch your Power BI journey with a week of insight

Many organisations want to understand the real impact of Power BI before committing to a wider rollout. The Power BI Concept in a Week engagement provides a fast and focused way to explore its value. Over five days, we build a proof of concept using your own data, showing how Power BI can modernise reporting, speed up insight generation and reduce manual effort.

Our specialists work closely with your team to connect to selected data sources, create an initial analytical model and develop a functional dashboard tailored to your needs. This hands-on approach helps your team become familiar with Power BI while demonstrating the practical benefits it can deliver with your existing Microsoft 365 licensing.

By the end of the engagement, you will have a working dashboard, meaningful insights drawn from your data and a clear understanding of how Power BI can support your wider goals. You will also receive recommendations on next steps for adoption, governance and scaling to help you determine the best path forward.

## What's included?

- ✓ Rapid connection to your data sources and review of reporting requirements
- ✓ Development of a functional Power BI dashboard aligned to your business needs
- ✓ Hands-on collaboration with your team to validate the art of the possible using existing Microsoft 365 licensing
- ✓ Best practice guidance for modelling, visualisation and report optimisation
- ✓ Practical recommendations and next steps for wider adoption and scaling

The Power BI Concept in a Week engagement is delivered over 5 days at a fixed price of £6,000. As a Microsoft Partner, Advania UK has access to Microsoft-funded opportunities. Contact us to check your eligibility.

## Unlock your Power BI potential

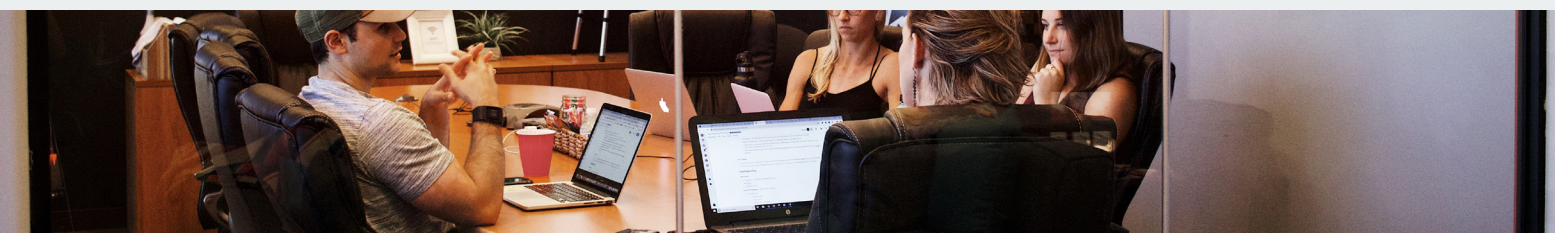

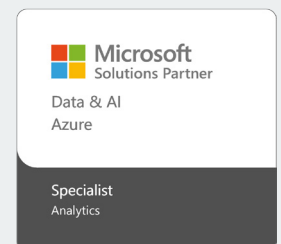

The Power BI Concept in a Week provides a fast paced, hands-on demonstration of how Power BI can transform your reporting. Our team works with you to connect to your data, build a working dashboard and validate key insights, enabling you to see immediate value.

By the end of the week, you will have a functional proof of concept and clear guidance on how to take Power BI further across your organisation.

## Why choose Advania?

- ✓ **Proven Azure expertise** - As an Azure Expert MSP, Advania consistently delivers high-quality data and analytics platforms that drive measurable business outcomes.
- ✓ **Extensive real-world experience** - We have supported more than 500 organisations in defining, modernising, and executing their data strategies across diverse industries.
- ✓ **Deep technical capability** - Our team includes more than 250 Azure-certified specialists with expertise spanning data architecture, governance, analytics, and platform engineering.
- ✓ **Structured and reliable delivery** - We accelerate client data journeys through proven frameworks, robust methodologies and structured assessments that reduce risk and increase value.
- ✓ **Validated Microsoft excellence** - Holding the Analytics on Microsoft Azure specialisation demonstrates our advanced capability in delivering high-quality, production-grade analytics solutions on Azure.
