

Windows Virtual Desktop (WVD) Jump Start

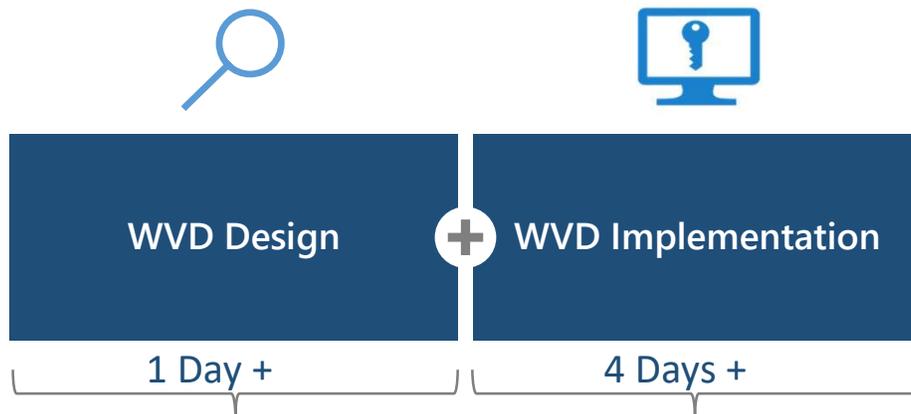

Streamlined Design and Implementation

The Windows Virtual Desktop (WVD) Jump Start engagement is a 5 days long solution to help customers to quickly respond to crisis or emergency situations where enabling remote work for employees using Azure Windows Virtual Desktop service to keep the business up and running is the top priority. Although this engagement can be delivered in person, this solution is designed to be delivered remotely by the Microsoft Team

◆ Offering Scope ◆

Duration: Streamlined to support immediate needs

- Identify customer requirements for the WVD solution
- Identify Azure Platform gaps to deploy WVD
- Design for WVD Personal or Pooled desktops
- Design for scale
- Architect led workshops to understand the technology and capabilities.
- Implement a Windows Virtual Desktop Host Pool for Personal or Pooled Desktops
- Leverage Windows 10 marketplace image with Office Pro Plus
- Demonstrate both browser-based option, Windows app and iOS/android app for connectivity
- Enable MFA and Identity Protection for WVD Users
