

What level is your security at in Microsoft?

We start your journey towards 99% security in two steps. At a fixed price.

Analyze

Security Analysis of Microsoft Entra ID

We review settings for Conditional Access, Zero Trust, MFA, and default configurations.

Security Analysis of Microsoft 365

What do the settings for Defender look like? How are clients managed? Are the current licenses optimized? These are the questions we address during our mapping.

Result

The results are presented in a detailed report where, together with you, we go through the following areas and provide concrete recommendations.

- ✓ Current security level
- ✓ Identified risks
- ✓ Prioritized action list
- ✓ Recommended next step

☑ Microsoft Entra ID
& Microsoft 365

☑ Identity protection

☑ User rights
