

# Enterprise DevOps Maturity Assessment

Contino is a global Enterprise DevOps, Data and Cloud Transformation Consultancy. We specialise in helping enterprises transform. Since 2014, we've grown to a global team that all have one thing in common: we're here to challenge the status quo.

360+ People 5 Global Offices 300+ Engagements 150+ Customers

## WHAT MAKES US UNIQUE

### Dual Delivery and Upskilling

In all engagements we apply a **dual delivery and upskilling approach** – helping you change your culture, your operating model, and build your own capabilities.

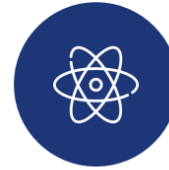

### Our Operating Model

We align our entire organisation - from engineering, consulting, marketing, finance, people and talent management - to deliver **market leading outcomes** that ensure your success.

### Engineering First

We're a people led business, made up of some of the brightest minds in the industry. **We foster an innovative engineering culture** and bring this to every engagement.

### Metric & Business Case Driven

**We turn every engagement into a science**, tracking the efficiencies that we gain and mapping them back to a rigorous business case.

### Scale and Global Reach

Specialising in helping **over 150 of the world's leading brands** accelerate digital transformation with our **multi-regional capabilities**. (EMEA, AMS, APAC)

## DIGITAL TRANSFORMATION STARTS HERE

### Why DevOps & Continuous Delivery?

DevOps and Continuous Delivery are areas of best practice that can transform how software is delivered. They focus on optimizing People, Process and Technology across the value chain accelerate software delivery cycle times and time to value.

### Problems We Solve

- Slow release cycles
- Problems accessing environments
- Poor quality during testing cycles or in production
- Lack of collaboration between development, operations and testing

### Benefits We Deliver

- Get to market faster
- Deliver more frequently and with more agility
- Reduce release risk
- Improve efficiency

### Our Approach

The Contino DevOps Maturity Assessment leverages our proprietary self assessment tooling supported by interviews and workshops conducted with key stakeholders across both technology teams and the broader business. Organizations are benchmarked against 200 DevOps maturity points spanning people, process and technology considerations, and respective industry peers.

### Flexible 1-4 Week Engagement Model

The engagement is delivered by a team of Contino practitioners over a 2-4 week period, est. \$25k-\$45k, depending on the size and complexity of the organization.

### Deliverables (Based On Scope) May Include:

- Report highlighting key themes, observations and a gap analysis between current and desired maturity.
- A detailed strategy across people, process and technology initiatives for maturing DevOps across your organization.
- Identification of Lighthouse opportunities to prove the strategy and accelerate proof of value for stakeholders
- Define baseline metrics that can be tracked through the transformation to map ROI.
