Network Solutions Continue to Change at a Rapid Rate

With the growing push toward cloud computing for most organizations, Converge has created the Azure Network Foundations offering to ensure our customers are able to get up and running in Azure with a solid network environment that is both performant and secure based on the latest available services.

Azure Network Foundations

Ensure your Azure network systems & services are secure and performant.

1

MICROSOFT AZURE BEST PRACTICES

Structured engagement based on Microsoft and industry best practices

2

INDUSTRY-SPECIFIC ALIGNMENT

Blueprints, policies, and configurations specific to industry verticals

3

RAPID & CUSTOMIZABLE SOLUTION

Rapid networking solution for cloud/hybrid environments, customizable to support most third-party devices/appliances

Converge Azure Network Foundation & Microsoft Azure Services

We utilize our own intellectual property developed over many Azure projects to provide a best-practice Azure network environment, including policies and configurations for specific industry verticals. This means whether you deal with HIPAA as a healthcare organization, or must comply with SOC-II guidelines, Converge Azure Network Foundation has you covered. Converge Azure Network Foundation focuses on five cornerstone Azure services.

PROVISION

Azure Bastion

PROTECT

Azure Firewall

CONNECT

Azure Virtual WAN
Azure VPN Gateway
Azure Virtual Networks
