

Services Offerings

Microsoft Fabric Workshop - Getting ready to move

Create a plan to move to Fabric. What it means to move from a P SKU to F SKU and creating a detailed plan.

Moving to PowerBI - Strategy

If you are early in your journey, we can help you get started on understanding the licensing, the data matrix, roadmap, focusing solely on in memory PowerBI, for small instances

A strategic move to Fabric (Capacity)

For large clients (F subscriptions) we help you understand how to leverage the Fabric ecosystem to support BI and AI. To determine what works best for you company and implementation.

Implementation

Implementation services to get on the right path with the Fabric ecosystem. The above workshops will come with an implementation plan.

Training

From Azure services to admin to end user training - we got you covered!

Support

Prepaid buckets or on demand, we support your environments in all ways
