

Contact list app

Keep an overview of your contacts

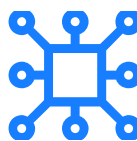

WHAT

This neat app gives you a quick overview of all employees in your organization and their contact details. The app is based on an always up-to-date list so that you can easily contact anyone you want.

By simply clicking one button, you give someone a call, send them an email or a message. But there are many more options: in the app you can even find the recent files the person worked on and any recent emails the person sent you. The possibilities are endless: for example, you can also see a profile picture and even the date of birth of your contacts if desired.

Key points

Central place to find everyone

Easily call, email or chat with colleagues

Tailored to your business

Active Directory (AD) based

WHY

With the help of this app, you can quickly contact your colleagues whenever you need them, from anywhere. The app is therefore your central place where you can always find everyone's up-to-date contact details very quickly. The contact options are made to fit your organization's needs perfectly.

3 benefits

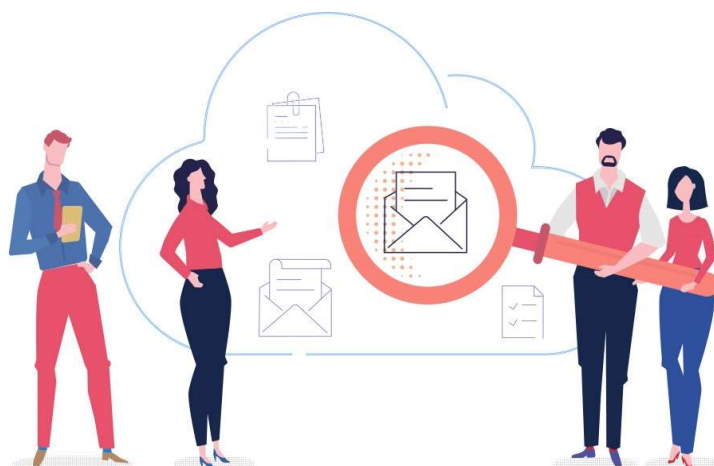

Tailor-made solution

Focus on the end user

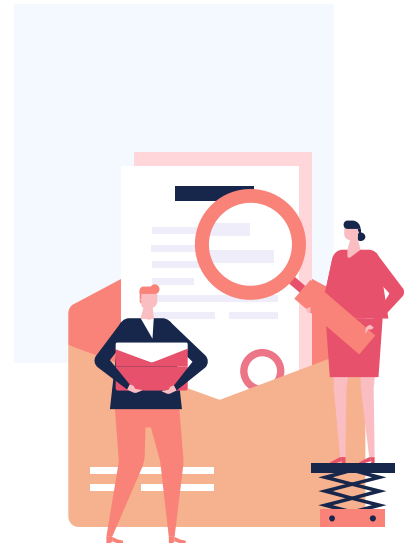

**Contact your colleagues quickly
and easily**

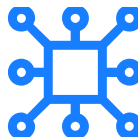

HOW

Before we build this Microsoft 365 Power App, we'll first discuss what functionalities your organization would like to see in this contact list app. After that, we create the app entirely to your wishes. The layout is also custom so that the app really suits your organization and its users.

Deliverables

Central contact list

Easily contact colleagues

Tailored to your organization
