

License Optimization

Get the most out of your Microsoft 365 licenses

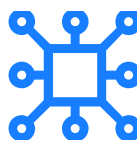

WHAT

Do you feel like your current Microsoft 365 licenses can be optimized? Do you wonder if you're overpaying or missing certain functionalities? Maybe you are not sure where to start with all those different licensing options? This License Optimization Workshop will definitely help you!

During this workshop, our expert first looks in detail at the needs of the various end users in your organization, and then gives you appropriate advice in terms of the most suitable licenses. This way you avoid unnecessary costs, but you certainly also have all the licenses you need. You will also get to know the ConXioN One platform on which you can easily manage your licenses yourself, get to know the community and find our training sessions.

Key points

Optimized licenses

Advice tailored to your
organization

Extensive trajectory with scan and
detailed reporting possible

ConXioN One
license provisioning platform and
community

WHY

After this session, you can get started with optimized licenses right away. This way you can be sure that you no longer pay for licenses that you do not use, and that you always have the package that best suits your needs.

If desired, there is also an extensive trajectory in which you receive a detailed report after an in-depth scan.

In short, this is an extremely useful workshop to ensure that you have exactly the licenses that you need as an organization.

5 benefits

Tailor-made solution

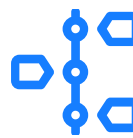

Know what licenses are needed

No more unnecessary licenses

**Meet the ConXioN One license
provisioning platform and
community**

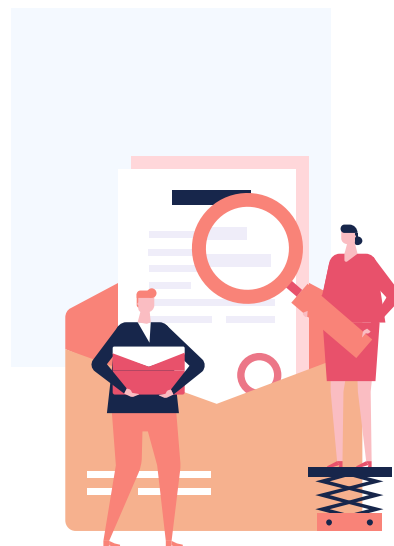

**Possibility of an extensive
trajectory**

HOW

We start the workshop with an analysis of the current situation. After this, our expert will look at what can be improved together with you, and give advice tailored to your organization. The ConXioN One platform is also explained, on which you can easily manage your licenses yourself and join our community.

If desired, you choose the extensive trajectory. The full operation is explained by means of a third-party tool. The results of the analysis are thoroughly reviewed, and the report provides insight into the most optimal situation in terms of licenses. The recommendations of the report are explained in detail.
