The image is a screenshot of the 'Corbett Backup & Restore Wizard - A Product by Corbett Inc.' application. The interface is divided into several sections. At the top, there is a title bar with the application name and standard window controls. Below the title bar, there is a navigation bar with buttons for 'Open', 'Export', and 'Extract'. The 'Export' button is highlighted with a red box. To the right of the navigation bar, there are links for 'Register' and 'Buy Now', and a search icon. The main area is split into two panes. The left pane is a file explorer showing a tree view of folders and files. The 'Export' button is highlighted with a red box. The right pane displays an email message. The email is from 'Postmaster@company.mail' and is dated '02-09-2015 15:35'. The subject is 'MDaemon Notification -- Attachment Removed'. The message body contains a warning: 'MDaemon has detected restricted attachments within an email message'. Below the warning, the email content is displayed, showing the 'From', 'To', 'Subject', and 'Message-ID' fields. The attachment list shows 'Attachment(s) removed' and 'DumpIT.exe'. The bottom of the window has a status bar with the text 'v4.0 | DEMO (Trial Edition) | MDaemon Files' and a 'Compact View' toggle.

Conclusion

This software effortlessly convert your files without affecting original data of the emails. Many experts recommend this tool to export bulk emails securely and quickly.
