

# Viva Deployment Offer

Modernize Your Knowledge Management System with Viva Topics

Leverage Microsoft Viva Topics to harness the collective expertise within your organization and create an ever-growing corporate knowledge base.

Using a proven delivery methodology, Core BTS will work with you to understand your priorities, challenges, and culture to design and deploy a solution that takes your knowledge management to new heights.

Contact our team to get started with Microsoft Viva Topics at [info@corebts.com](mailto:info@corebts.com).

## VIVA TOPICS BENEFITS

Supports Productivity

Reduces Redundancy

Prevents Knowledge Loss

Enables Onboarding

### Discover

Core BTS will define your knowledge management requirements and help you envision your desired state.

### Build & Stabilize

Core BTS will set up Viva topics in your Microsoft 365 tenant and establish permissions and content governance.

### Adopt

Alongside internal stakeholders, Core BTS will develop a robust end user training program and communication plan.

### Deploy

Core BTS will deploy Viva Topics, ensuring the employee experience is consistent with your success criteria.
