

# Microsoft FastTrack

Accelerate Microsoft 365 Deployment & Adoption

FastTrack provides organizations with customized guidance for deploying and adopting Microsoft 365, including access to engineering expertise, best practices, tools, and resources.

Available to organizations with eligible Microsoft 365 subscriptions at no added cost, FastTrack can help accelerate migration efforts, enable teamwork, and increase app and device security.

As a FastTrack Ready Partner, Core BTS can deliver FastTrack guidance as well as value-added services.
