

TEAMS MANAGED SERVICE

TRANSFORMING BUSINESS THROUGH TECHNOLOGY

RAPIDLY REALISE THE FULL VALUE OF YOUR TEAMS INVESTMENT

Microsoft Teams can be a game-changer for productivity and collaboration, but managing the platform can be complex and time-consuming. Core's Teams Managed Service helps you realise the value of your Teams investment quickly and keeps your business safe and supported.

TEAMS MANAGED SERVICE OVERVIEW

Organisations around the world have embraced Microsoft Teams as a way to improve productivity, collaboration and the effectiveness of remote working. And despite Teams' user-friendly interface, it is a complex application which requires specialist skills to deploy effectively.

Teams Managed Service from Core provides an alternative solution for organisations that want to get more out of their Teams platform, combining dedicated support with specialist

expertise to help customers maximise the value of their Teams deployment.

Designed for organisations that want to deploy and manage Teams securely and compliantly, without hiring dedicated resource, Teams Managed Service combines deep technical expertise with best-of-breed management principles and three decades of experience with the Microsoft ecosystem.
