

Azure Arc & Microsoft SPLA Quick-Start Assessment

SPLA Modernization Quick Start Assessment

Leveraging Azure Arc, along with Coretek's SPLA Modernization Quick Start Assessment, provides the ability to centrally manage and monitor your SQL Servers across on-premises and cloud environments, while only paying for licenses on a pay-as-you-go basis. This provides greater flexibility and greater cost savings compared to traditional licensing models. All this while accessing advanced security and management features from Azure, regardless of where the SQL workloads reside.

Key benefits for using Azure Arc with SPLA:

- Centralized management of SQL Servers in a single pane of glass
- Pay-as-you-go licensing for SQL Server usage based on consumption
- Simplified Security, Policy and Compliance Standards
- Extended Security Updates (ESUs)

Azure Arc

Pathways to Modernize SPLA on-prem

Azure Arc empowers SPLA partners to manage SQL licenses presenting a flexible, cost-effective solution benefiting you, the customer. The Pay-As-You-Go (PAYG) model provides significant savings, as you pay only for what you use monthly or hourly.

Pathways forward	Windows Server	System Center	CIS	SQL Server	Remote Desktop	Dynamics	Office	Exchange	CSP	MCA-E
									MSP	ISV
Azure Arc enabled PAYG Licensing	✓			✓					✓	✓
Azure Stack HCI	✓				AVD				✓	✓
Software Subscription SA: Self-Hosting Benefit	✓	✓		✓	✓	✓		✓		✓
Software Subscription SA: Virtualization Benefit	✓	✓		✓	✓				✓	✓
DPM → Azure Backup, Site Recovery		✓	✓						✓	✓
SCOM → Azure Monitor, Sentinel, Log Analytics		✓	✓						✓	✓
SCCM → Azure Arc Config, Change and Update Management		✓	✓						✓	✓
System Center Orchestrator → Azure Automate		✓	✓						✓	✓
System Center Endpoint Protection → Defender for Cloud		✓	✓						✓	✓

New Cloud Billing Model for SQL Server (Pay As You Go*)

Better cost efficiency when paying only for what you use

SQL Server pay-as-you-go licensing enabled by Azure Arc (per core per month/hour)

Pricing	Monthly rate	Hourly rate
Standard Edition	\$73	\$0.100
Enterprise Edition	\$274	\$0.375

Manage all SQL estate with better observability

Enhance business continuity

Govern and protect all SQL estate using Azure

Available on SQL Server 2014, 2016, 2017, 2019, and 2022
*Traditional Licensing Options are still available. More [here](#).

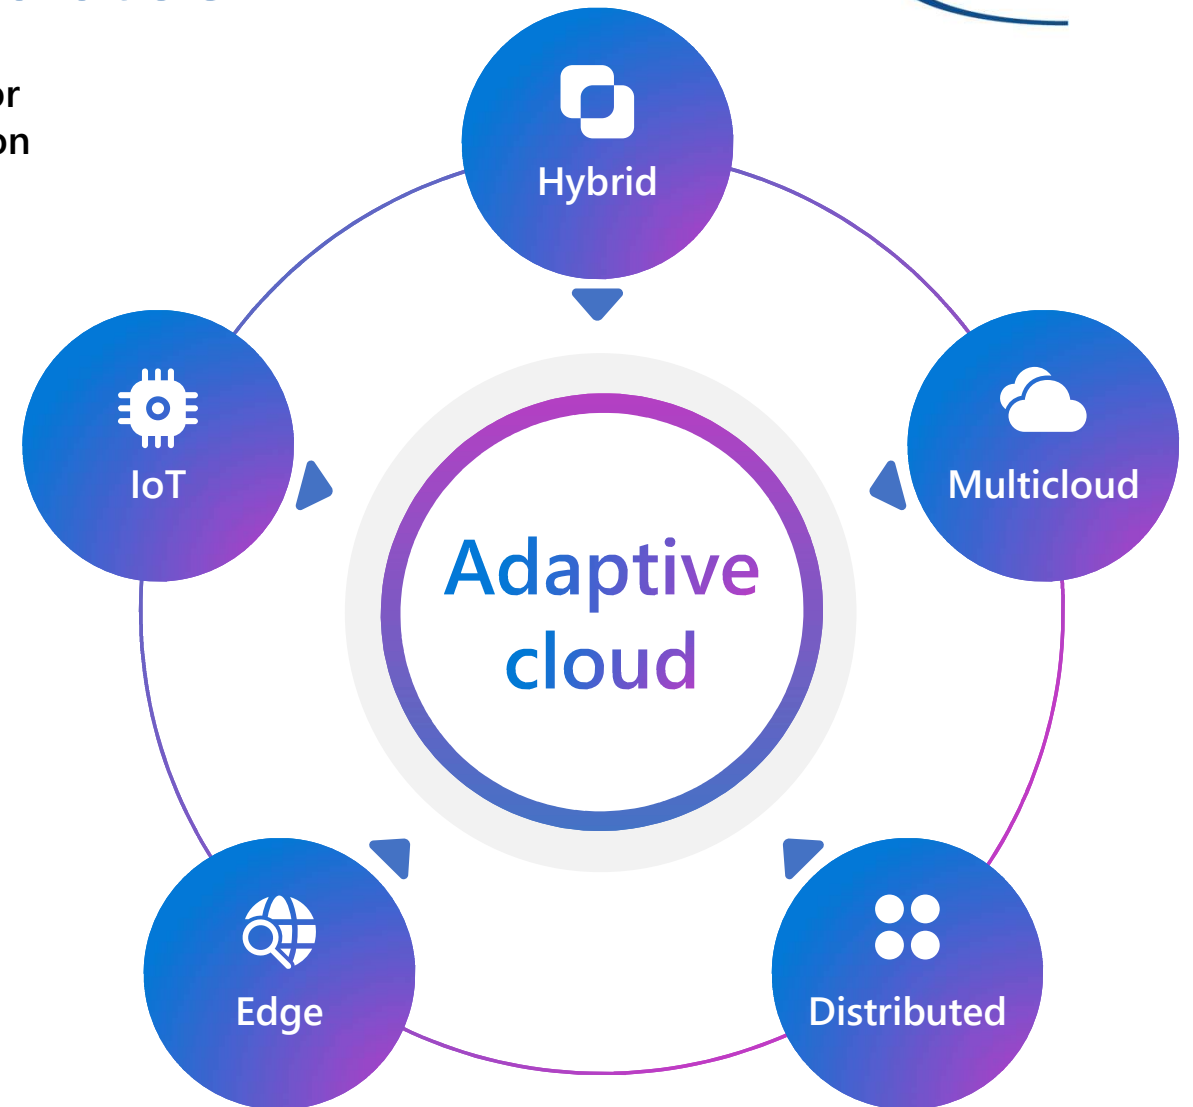

Quick Start Assessment Deliverables

Accelerate your migration and transformation that includes both hybrid or multi-cloud infrastructure. Our expertise will assess and provide strategy on moving Microsoft SQL Server from SPLA to Azure Arc

Assessment Deliverables

- Gather and Document Current On-Prem and Cloud Licensing types and quantities to perform the assessment
- Coretek's proprietary calculator will help you visualize cost savings based on your current architecture and leveraging our deep expertise as an Azure Experts, we ensures that you get the best possible cost savings.
- Model moving Microsoft SQL Server from SPLA to Azure Arc with an end-to-end strategy and Cost Savings.
- Provide Managed Support pricing for updates and patch management across your entire estate and strengthen governance, security and compliance
