

Citrix Assessment

Keep Pace with the Demands of your Hybrid Workforce

Now, more than ever, your remote work environment is critical in connecting your virtual team and your organization's workspace. Our Citrix Assessment will help determine if your environment is keeping pace with increasing demands and fully optimized to meet new requirements.

Coretek is a Citrix Platinum Partner specializing in designing, building, and managing Intelligent Workspace solutions. Our deep experience drives end-user computing hybrid cloud architectures in the most demanding environments globally. We deliver workloads across multiple physical datacenters and many global Azure regions.

Unlock More Value from Your Environment

Our Citrix Assessment Includes:

During the assessment our team will review your on-premises and cloud-hosted virtual apps and desktop environment during our assessment and analyze your Citrix Virtual Apps and Desktops (CVADS) environment. Our team will evaluate your current architecture, design, and redundancy and explore how it aligns with your key business objectives. We will provide insight and a roadmap to unlock more value from your environment.

- **Analysis Session** - Our team will execute a 4-hour session to perform a SWAT analysis leveraging the assistance of your IT stakeholder.
- **Expert Evaluation** - A certified Coretek Solution Architect will evaluate your environment's current architecture, design, redundancy, and state. Then, using tools, methods, and focused questions, they will gather critical findings needed to perform the assessment.
- **Assessment Documentation** - Our team provides an overview document of critical findings during the assessment with recommendations for the next steps. This document provides valuable insights into your current environment with final documentation you can use to make informed decisions.
