

# Unified Device Management

## Comprehensive Managed Device Solution

Coretek, industry-leading Azure Expert MSP, will deliver a 12-month managed services implementation for device management leveraging Microsoft Intune, Microsoft Autopilot, and Microsoft Defender, along with other third-party plug-ins for patching corporate applications. This end-to-end solution helps you achieve business priorities for endpoint management by securing traditional endpoints and mobile devices, enabling organizations to provide employees with the flexibility to bring their own devices (BYOD), and ensuring security while accessing company information.

## Benefits of Unified Device Management

Improves Device Lifecycle Management

Enhances Security Posture

Improves End User Productivity

Provides Peace of Mind for the Business Stakeholders & IT
