CORETEK

Endpoint Management Quick Start

How are you managing your mobile devices, laptops, and other user endpoints? Do you know if your user's devices are compliant with your IT policies?

Enable users to be productive, on any device, without compromising IT security.

Today's users are looking for more ways to remain productive while working on any device. 95% of organizations allow personal devices in the workspace. All these devices add additional risks, when you consider that 70 million smartphones are lost every year.

Improve your Microsoft Secure Score with Microsoft Endpoint Manager

Build management policies that protect your users, company data, and devices

Control users' endpoints and manage compliance with your IT policies

Give your users access to the apps they need on the devices of their choosing

Remote Workforces Demand Secure Endpoint Management
